PROFESSIONAL SUMMARY

Particle astrophysicist with big data expertise excited to apply analysis and machine learning skill to human-facing problems. Analytical problem solver with five years of experience performing data-driven research with Python, building statistical models, and communicating complex, technical results to diverse audiences in conference and outreach settings.

SKILLS

- **General:** Data science, statistics, data visualization, machine learning, deep learning, computer vision
- **Technical:** Python, NumPy, SciPy, scikit-learn, Keras, matplotlib, HTCondor, linux, Git, L^AT_EX
- **Other:** Scientific communication, technical problem solving, teaching, mentoring, physics

WORK EXPERIENCE

Wisconsin IceCube Particle Astrophysics Center

Research Assistant

Madison, WI

May 2014 – Present

- Performed big data analysis of astrophysical data from NASA's Fermi Large Area Telescope on a distributed, high-throughput computing cluster (100 GB - 100 TB scale pipelines)
- Developed and deployed a convolutional neural network to identify images of particles detected by a network of smartphones with 95% accuracy
- Utilized Monte-Carlo simulations to quantify algorithmic biases and systematic uncertainties for cosmic-ray measurements at the 0.1% level
- Created unbiased, data-driven algorithms to estimate physical parameters of cosmic-ray arrival direction distribution
- Developed random forest regression model to estimate angular uncertainty of cosmic rays detected by the Fermi telescope
- Worked in an international collaboration of 400+ scientists, coordinate working group, co-chair weekly international conference calls
- Regularly presented work at national and international conferences
- Mentored undergraduate researchers and high school students on data analysis projects

Department of Physics, University of Wisconsin-Madison

Teaching Assistant

Madison, WI

August 2013 – May 2014

- Designed discussion curriculum and taught calculus-based electricity and magnetism course to 50 engineering students each semester
- Received Honored Instructor award for teaching excellence (nominated by students)

EDUCATION

University of Wisconsin-Madison

Ph.D., Physics (graduating Dec 2018)

M.S., Physics

Madison, WI

2013 – 2018

2013 – 2016

Kutztown University of Pennsylvania

B.S., Physics, Minor, Mathematics

Kutztown, PA

2010 – 2013
